Charles Universal Broadband Enclosures (CUBE)
CUBE-MP1310 and CUBE-MP2117 Series

CUBE-MP2117SPXP

CUBE MP1310 and MP2117 Series enclosures are designed to serve as all-purpose remote terminals or junction boxes that can house a variety of equipment in a compact, environmentally protected cabinet. These units feature .090" welded aluminum construction with white powder-coated paint finish, continuous hinge door, weather-tight seal, and lockable wing knob entry to ensure equipment mounted inside is protected from the elements and unauthorized entrance. These models accept wood or aluminum mesh backboards for splice tray and equipment mounting. NEMA 4 compliant.

Cable Entrance . . . . Customer Selectable or None
Color . . . . White Powder Coated
Construction . . . . .090" Welded Aluminum
Mounting . . . . Wall or H-Frame, mounting plates included
