

Tier Rated Underground Enclosures for Driveway / Parking Lot / Off-Roadway Applications

Charles' Tier Rated Underground Enclosures™ (TRUE) are crafted from an advanced composite using a unique molding and gelcoat process, resulting in enclosures that are both lightweight and durable. These enclosures offer superior ease of handling and installation, with a tapered wall design that maximizes usable volume compared to similar polymer concrete models.

TRUE 15 and 22 series provide additional volume and can be stacked for efficient shipping and storage, reducing freight and handling costs significantly. Despite being up to 75% lighter than polymer concrete alternatives, TRUE enclosures maintain a durable gelcoat finish that resists UV damage and hydrolysis.

They are available in Utility Green or Graystone, with customizable colors upon request. Both TRUE 15 and 22 series meet and exceed the SCTE ANSI/SCTE-77 2013 standards for underground enclosure integrity, ensuring reliable performance under specific load conditions.

MARKETS SERVED:

- Telecom / FTTX
- Utility
- Wireless
- Broadband Cable

TRUE

FEATURES

- BEAD/BABAA compliant product
- Designed to meet or exceed ANSI/SCTE-77 Tier 15 ratings (TRUE 15 Series) or Tier 22 ratings (TRUE 22 Series) for various traffic applications
- Structurally rugged, non-metallic advanced composite material construction produces enclosures that are durable, lightweight, easy to install, and resistant to chemicals and water
- Tapered wall sides create maximum usable interior space
- Interior walls can support splice case and other mounting brackets using epoxy adhesive kits
- Deep well bottom edges provide long-term stability in grade level placements
- Units are available in two standard molded-in colors: Utility (Munsell) Green and Graystone, with many other special-order colors available
- Stainless steel hardware, including hex-head or penta head bolts
- Integrated EMS detection available

APPLICATIONS

- Fiber optic, copper and coaxial slack cable coiling and storage
- Access to sealed cases (splice cases, repeaters, load coils, SmartCoils™, etc.)
- Meter boxes / junction boxes
- Irrigation system and other waterway control valves
- Traffic and railway signal controls
- Ground rods

The TRUE Advantage!

- Strength and Durability** TRUE 15 Series meets ANSI/SCTE-77 Tier 15 Rated Loadings specifications, TRUE 22 Series meets ANSI/SCTE-77 Tier 22 Rated Loadings specifications
- Significantly Lighter Weight** Ease of handling and placement, less risk of worker injury
- Stackability** Lowers transportation cost and reduces storage space in warehouse or garage
- Mobility** Heavy machinery is not required to move units around at the warehouse or the job-site
- Space** Comparable or more useable volume under a given industry standard cover size
- Improved Ergonomics** Covers can be removed with little physical effort, and useable volume is closer to the surface for easier and safer access and retrieval of internal equipment; meets 2010 ADA Standards for Accessible Design

Optional split lid covers facilitate lid removal, access, and technician safety

Stability flange keeps enclosure firmly planted in ground and level

Recessed bolt locks with multiple stainless steel bolt types

Vault mount pedestal lid cover option accommodates Charles' vault mount square base 6", 8", 10" and 12" diameter pedestals

Lift pins aid in safe and quick cover removal

Optional nameplate/ customer ID insets

TRUE 15 Series and TRUE 22 Series Part # Nomenclature

1 – Product

- C = C-Series (Tier 15)
- T = T-Series (Tier 22)

2 – Size - Width*

- 17 = 17 inches
- 24 = 24 inches
- 30 = 30 inches

3 – Size - Length*

- 30 = 30 inches
- 36 = 36 inches
- 48 = 48 inches
- 60 = 60 inches

4 – Size - Depth*

- 18 = 18 inches
- 24 = 24 inches
- 30 = 30 inches
- 36 = 36 inches
- XX = Cover Only

**For #2-#5, see Page 2 "Features and Specifications" for valid size combinations, and "Cover Options" for valid covers per enclosure size.*

5 – Type*

- A = Base/1-Piece Cover
- S = Base/2-Piece Split Cover
- H = Base/2-Piece Split Cover with OHC-288/432 cut-out
- J = Base/2-Piece Split Cover with CFITH-144 cut-out
- X = Base/2-Piece Split Cover & 6" Sq. Base Cut-Out
- Q = Base/2-Piece Split Cover & 8" Sq. Base Cut-Out
- P = Base/2-Piece Split Cover & 10" Sq. Base Cut-Out
- T = Base/2-Piece Split Cover & 12" Sq. Base Cut-Out
- B = Base Only
- C = Cover Only

6 – Base Color

- E = Graystone
- G = Green
- X = No Base

7 – Cover Color

- E = Graystone
- G = Utility Green
- X = No Cover

8 – Option

- T = Tapered (std.)
- M = Mouse Hole
- X = No Base
- Z = Custom Configuration

9 – Bolt Type

- H = Hex-head
- R = 7/8" Penta-head
- X = No Hardware

10 – EMS Detection

- T = Telephone
- P = Power
- X = None

11 – Name Plate/Customer ID**

- CA = CATV
- CU = COMMUNICATIONS
- EL = ELECTRIC
- FO = FIBER OPTIC
- TE = TELEPHONE
- XX = Blank (Filler)

***Nameplate codes may not be available on all product types. Nameplates can be molded directly into cover upon request.*

Additional sizes/configurations available per custom order. Please call (847) 806-6300 for sales assistance and additional product information; including availability of custom lid colors, pedestal mount lids, interior mounting brackets and other options and accessories.

Lifting Hook Accessory

Part #:TRUE-LFTHOOK

Used to safely grab onto lid lift pin for easy cover removal.
31" length, steel construction.
